Valley Veterinary Rehabilitation is a purposefully designed, 6000 square foot internationally known facility with experienced, qualified Veterinary Rehab Nurses and the newest, **proven** state of the art veterinary rehabilitative equipment.

All rehabilitation examinations and treatment plans are done by a licensed doctor of veterinary medicine with six years experience in veterinary physical rehabilitation, trained and certified at the University of Tennessee.

Convalescing patients receive individualized treatment plans promoting a speedy, productive recovery for them, and a worry-free experience for you and your clients. We are only 20 minutes from the Lincoln Tunnel.
